Corporate Facility Supply

1

IDENTIFICATION OF THE SUBSTANCE OR PREPARATION AND OF THE COMPANY

Use of Preparation: Bowl Cleaner

Company Identification:

Corporate Facility Supply
7 Neilson St.
St. Catharines, ON
L2M 5V9

Company Emergency Telephone Number(s):

905-682-8888

Transportation Emergency Telephone Number(s):

CANUTEC 613-996-6666 or *666 for cell phone

2

HAZARD IDENTIFICATION

GHS Hazards: Corrosive to Metals Category 1 H290
Skin corrosion/irritation Category 1A H314
Serious eye damage/eye irritation Category 1 H318
Acute toxicity,oral Category 4 H302

Hazard Pictograms :

GHS Label Elements, Including Precautionary Statement

Signal Word: DANGER

Hazard

Statements: May be corrosive to metals. Causes severe skin burns and eye damage. Harmful if swallowed.

Response: IF SWALLOWED: call a POISON CENTER or doctor/physician IF you feel unwell. Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (or hair): Remove/Take off Immediately all contaminated clothing. Rinse SKIN with water/shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a POISON CENTER or doctor/physician. Wash contaminated clothing before reuse. Absorb spillage to prevent material damage.

3 COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Description: Chemical Blend

Ingredient Name	CAS#	Classification	% by Wt
Phosphoric Acid	7664-38-2	Corrosive to Metals Category 1 H290 Skin corrosion/irritation Category 1A H314 Serious eye damage/eye irritation Category 1 H318 Acute toxicity,oral Category 4 H302 Acute toxicity,inhalation Category 4 H332	15-30

4 FIRST AID MEASURES

Inhalation:	Remove victim to fresh air. If symptoms persist, call a physician
Eye Contact:	IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Consult a doctor immediately.
Skin Contact:	Thoroughly wash exposed skin with soap and water. Remove any contaminated clothing and wash before reuse. If irritation persists seek medical attention
Ingestion:	Immediately call physician. DO NOT induce vomiting. Give several glasses of water. Never give anything by mouth if victim is unconscious or convulsing.
Most Important Symptoms and Effects:	Severe burns to eyes, skin and respiratory tract.
Notes to Physician:	Treatment based on judgment of attending physician.

5 FIRE FIGHTING MEASURES

Suitable extinguishing media:	Use dry chemical, CO2, water spray (fog) or foam.
Unsuitable extinguishing media:	not known
Special exposure hazards:	This product causes burns of eyes, skin and mucous membranes. Thermal decomposition may lead to release of irritating and toxic vapors. In the event of fire and/or explosion do not breathe fumes.
Special safety equipment:	Self contained breathing apparatus and full protective clothing required for extinguishing fire.
Fire and explosion:	None
Further information:	None

ACCIDENTAL RELEASE MEASURES

6

Personal Precautions, Protective Equipment and Emergency Procedures

General Measures: Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in Sections 7 and 8

For Non-Emergency Personnel

Protective Equipment: Wear adequate personal protective equipment

Emergency Procedures: Evacuate unnecessary personnel.

For Emergency Personnel

Protective Equipment: Wear adequate personal protective equipment

Emergency Procedures: Wear adequate personal protective equipment

Environmental Precautions: Prevent release to the environment if possible. Dike large spills to prevent material from entering streams or sewer systems.

Methods and Material for Containment and Cleaning Up

For Containment: Soak up inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal

Methods for Cleaning Up: Contain spillage and then collect with noncombustible absorbent material(e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulation. Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.

Reference to Other Sections: None

7

HANDLING AND STORAGE

Precautions for safe handling: Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Avoid splashes or spray in enclosed areas. Ensure good ventilation/exhaustion at the workplace.

Information about fire and explosion protection: none

Requirements to be met by storerooms and receptacles: Keep container closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Keep away from incompatible materials such as alkalis, reducing and oxidizing agents, bleach and ammonia. Do not mix with any other chemicals

Information about storage in one common storage facility: unknown

Further information about

storage conditions: none

Specific end use: not applicable

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Respiratory protection: Mechanical ventilation should be adequate. Local exhaust recommended.

Hand protection: Butyl, nitrile rubber or natural rubber. Confirm with reputable supplier first.

Eye protection: Use chemical goggles and/or a full face shield.

Skin protection: Wear protective clothing, including boots or safety shoes with polyvinyl chloride (PVC) or neoprene.

Working hygiene: Handle in accordance with good industrial hygiene and safety practices.

Exposure Guidelines: A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.

Phosphoric Acid

TWA mg_m³:	1 mg/m ³
STEL ppm:	
STEL mg_m³:	3 mg/m ³

9 PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	Liquid
Appearance:	Blue, thick liquid
Molecular Weight:	No Data Available
Odour:	Mint
Odour Threshold:	No Data Available
pH:	1-2
Melting Point:	No Data Available
Boiling Point:	approx. 100 deg C
Flash Point:	No Data Available
Evaporation Rate (BuAc=1):	No Data Available
Flammable Limits in Air:	No Data Available
Upper Flammability Limit:	No Data Available
Lower Flammability Limit:	No Data Available
Vapour Density (Air=1):	>1
Vapour Pressure:	No Data Available
Specific Gravity:	1.14-1.15
Solubility in Water:	Complete
Log Pow (calculated):	No Data Available
Autoignition Temperature:	No Data Available
Decomposition Temperature:	No Data Available
Viscosity:	min. 400 cps
Solubility in other Solvents:	No Data Available
Partition Coefficient:	No Data Available
n-octanol / Water:	No Data Available
Kinematic Viscosity:	No Data Available
Dynamic Viscosity:	No Data Available

Explosive Properties: No Data Available
Percent Volatile by Volume: No Data Available

10 STABILITY AND REACTIVITY

Reactivity: Normally stable.

Chemical stability: Stable under recommended storage conditions

Thermal decomposition conditions to avoid: not known

Possibility of hazardous reactions: Will not occur

Conditions to avoid: Unintentional contact with water and moisture. Keep containers tightly closed , when not in use.

Hazardous decomposition products: CO or CO2. Toxic chlorine fumes

Materials to avoid: Organic materials, metals and combustible materials. When diluting DO NOT add water to the acid. Add acid to water.

Hazardous polymerization: none

11 TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity: See below

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Symptoms: No data available

Sensitization: No data available

Mutagenic Effects: No data available

Carcinogenicity: None of the ingredients are listed by IARC, ACGIH, NTP and OSHA as carcinogen

Reproductive Toxicity: No data available

STOT single exposure: No data available

STOT repeated exposure: not known

Chronic Toxicity: May damage organs

Target Organ Effects: Respiratory Tract

Aspiration hazard: No data available

LD/LC50 values relevant for classification: None

Listed Ingredients:

Phosphoric Acid

LD50 (dermal) 2740 mg/kg Rabbit
LD50 (oral) 1530 mg/kg Rat

12 ECOLOGICAL INFORMATION

Toxicity:	Product is corrosive. Low pH (acidity) of material is harmful to aquatic life.
Persistence and Degradability:	No Data Available
Bioaccumulative Potential:	No Data Available
Mobility in Soil:	No Data Available
Other Information:	No Data Available
Aquatic Toxicity:	No Data Available
Toxicity to algae, fish, invertebrates:	No Data Available
Biodegradation:	No Data Available

13 DISPOSAL

Waste Disposal Recommendations:	Follow local, provincial, state and federal regulations.
Ecology – Waste Materials:	no data available
Empty Containers:	Triple rinse and dispose according to provincial, state and federal regulations

14 TRANSPORTATION INFORMATION

Department	Proper Shipping Name	Contains	Hazard Class	UN#	Packing Group
Canadian TDG (Road & Rail)	Corrosive Liquid , Acidic, Inorganic, N.O. S.	Phosphoric Acid	8	3264	III

Please note: This shipping description is of a general nature only. It does not consider package sizes, modes of transport and other specific circumstances. Appropriate regulations should be referenced, and handling for transportation of dangerous goods/hazardous materials should be performed by trained personnel only.

REGULATION

15

OSHA/WHMIS 2015 Classification: Corrosive to Eyes and Skin
Corrosive to Metals

California PROP 65: no ingredients listed

Cdn Domestic Substance List (DSL): All Ingredients Listed

HMIS III Rating

Health: 3
Flammability: 0
Physical: 1
Personal Protection: H
