#### SECTION 1 - PRODUCT AND COMPANY INFORMATION

Product Name: Product Use: Supplier Name and Address: : Vanish B

- : Laundry Pre-Spotter : Corporate Facility Supply 7 Neilson Street
- St. Catharines, ON L2M 5V9

Telephone: Emergency Telephone:

- : (905) 682-8888
- : CANUTEC (613) 996-6666

## SECTION 2 - HAZARD IDENTIFICATION

#### **EMERGENCY OVERVIEW**

Physical State: GHS Classification: Skin Irritation: Eye Irritation: Acute Toxicity: GHS Label Elements: Hazard Pictograms Liquid

Category 1C Category 1 Category 2

Signal Word: Hazard Statements:

**Precautionary Statements:** 

Potential Health Effects: Inhalation

Skin

Eyes Ingestion Aggravated Medical Condition

Danger H302 Harmful if swallowed H312 Harmful in contact with skin H318 Causes serious eye damage Prevention P102 Keep out of reach of children P262 Do not get in eyes, on skin, or on clothing P284 In case of inadequate ventilation wear respiratory protection Response P302 IF ON SKIN: Flush with plenty of water for at least 15 minutes P305 IF IN EYES: Flush with plenty of water for at least 15 minutes P332+P313 If skin irritation persists, get medical attention : Strongly irritating to the eyes, nose, throat and lungs. High concentration of vapours will cause irritation. Similar effects with misting the product. : Dangerous in case of skin contact. Causes moderate skin irritation. Symptoms may be delayed. : Contact can result in tissue damage. : Harmful if swallowed. : None known

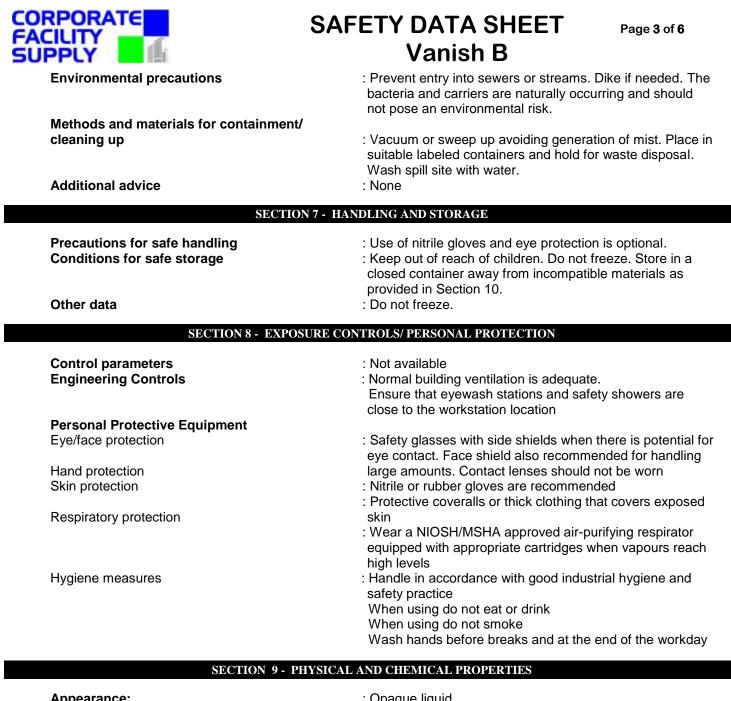

Page 2 of 6

Symptoms of Overexposure

: See section 11.

#### SECTION 3 - COMPOSITION/ INFORMATION ON INGREDIENTS

#### HAZARDOUS INGREDIENTS Chemical Name CAS-No. Concentration [%] Sodium Hypochlorite 7681-52-9 0-5 Sodium Hydroxide 0-5 1310-73-2 2-propenoic acid 9003-01-4 0-5 SECTION 4 - FIRST-AID MEASURES **General Advice** : Move out of dangerous area Consult a physician Show this Safety Data Sheet to the doctor in attendance : Move victim to fresh air. Give artificial Inhalation respiration only if breathing has stopped. Give cardiopulmonary resuscitation (CPR) if there is no breathing and no pulse. Obtain medical attention immediately. **Skin Contact** : Immediately flush with cool water for 15 minutes while removing contaminated clothing and shoes. Discard or wash well before reuse. Seek medical attention if irritation develops/persists. : If a contact lens is present, DO NOT delay Eye Contact irrigation or attempt to remove the lens. Get medical attention if irritation develops and persists. Rinse with water. Immediately flush with cool water. Remove contact lenses, if applicable, and continue flushing for 15 minutes. Seek medical attention if irritation develops. Ingestion : Do not induce vomiting. Rinse mouth with water then drink one or two glasses of water. Seek medical attention, or contact poison control centre immediately. Never give anything by mouth if victim is unconscious, is rapidly losing consciousness or is convulsing. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. IF SWALLOWED: immediately call a POISON CENTRE or doctor/physician. **SECTION 5 - FIRE-FIGHTING MEASURES** Suitable extinguishing media : Alcohol foam, carbon dioxide, dry chemical Specific hazards arising from the chemical : None known Special protective actions for fire-fighters : None Additional advice : None SECTION 6 - ACCIDENTAL RELEASE MEASURES **Personal precautions** : Wear appropriate protective equipment.

Appearance: Odor: Odor Threshold: pH: Melting point/ freezing point: Initial boiling point and boiling range: Flash point: Evaporation rate: Flammability (solid, gas): Upper/lower flammability or explosive limits: Vapour pressure: Vapour density: Relative density (g/mL): Water solubility: Solubility in other solvents: Partition coefficient: n-octanol/water:	: Opaque liquid : None : Not available : 7.71 : Not available : Not available
Partition coefficient: n-octanol/water: Auto-ignition temperature: Decomposition temperature:	: Not available : Not available : Not available

Viscosity:

#### : As water

#### SECTION 10 - STABILITY AND REACTIVITY

Reactivity Chemical Stability Possibility of hazardous reactions Conditions to avoid Incompatible materials Hazardous decomposition products

- : Product is stable
- : Stable under normal conditions
- : Hazardous decomposition products are not known
- : Avoid contact with oxidizing chemicals.
- : Strong oxidizing agents
- : Not available

### SECTION 11 - TOXICOLOGICAL INFORMATION

Product Information		
Acute toxicity		
Skin Corrosion/ Irritation		
Serious eye damage/irritation		
Respiratory or skin sensitization		
Germ cell mutagenicity		
Carcinogenicity		
Reproductive toxicity		
STOT-single exposure		
STOT-repeated exposure		
Aspiration hazard		
Toxicology Data for Ingredients		
Sodium Hypochlorite		
Acute toxicity		
Skin irritation		

Eye irritation

### Sensitization

Other

Sodium Hydroxide Acute toxicity

Skin irritation Eye irritation Sensitization **2-Propenoic acid** Acute toxicity : Not available : LD50 oral mouse: 5800 mg/kg : Very hazardous in case of skin contact (irritant). Hazardous in case of skin contact (corrosive). Contact with skin may also cause vesicular eruptions and eczematoid dermatitis which becomes evident upon re-exposure. : Hazardous in case of eye contact (corrosive). Can cause severe irritation and possible burns to skin and eyes. Eye contact may also cause corneal and conjunctival edema, conjunctival hemorrhages. Prolonged or repeated eye contact may cause conjunctivitis. : Slightly hazardous in case of inhalation (lung sensitizer. lung corrosive) : Ingestion can cause burns to the digestive tract. Symptoms may include: 1. pain and inflammation of the mouth, pharynx, esophagus, and stomach. 2. erosion of the mucous membranes (chiefly of the stomach), nausea, vomiting, choking, coughing, hemorrhage, 3. circulatory collapse with cold and clammy skin (due to methemoglobinemia), cyanosis, and shallow respirations. 4. confusion, delirium, coma. 5. edema of the pharynx, glottis, larynx with stridor and obstruction. 6. perforation of the esophagus, or stomach with mediastinitis or peritonitis. Inhalation causes slight to severe respiratory tract irritation and delayed pulmonary edema. Prolonged or repeated inhalation may cause allergic respiratory reaction (asthma).

- : LD50 intraperitoneal, mouse: 40 mg/kg LDLO oral, rabbit: 500 mg/kg
- : rabbit: 500 mg/ 24 hours, severe
- : rabbit: 400 ug mild; 1% eyes, severe
- : Not available

: LD50 oral, rat: >10000 mg/kg

Skin irritation

# SAFETY DATA SHEET Vanish B

LC50 dermal, rat: >2000 mg/kg

: Non-irritant. Contact dermatitis may occur due to extreme prolonged exposure.

: Non-irritant. Dust particles in the eye may cause pain and/or irritation.

: Avoid inhalation of dust. Animal studies indicate the inhalation of respirable polyacrylate dust may cause inflammatory changes in the lungs.

### SECTION 12 - ECOLOGICAL INFORMATION

Product Information:		
Toxicity:	: Not available	
Persistence and degradability:	: Not available	
Bioaccumulative potential:	: Not available	
Mobility in soil:	: Not available	
Other adverse effects:	: Not available	
Toxicology Data for Ingredients:		
Sodium Hypochlorite		
Toxicity:	: LC50 Not available	
	LC50 Not available	
Persistence and degradability:	: Possibly hazardous short term degradation products are	
<b>č</b>	not likely. However, long term degradation products may	
	arise.	
Bioaccumulative potential:	: Not available	
Mobility in soil:	: Not available	
Other adverse effects:	: The product itself and its products of degradation are not	
	toxic.	
Sodium Hydroxide		
Toxicity:	: LC50 Fathead minnow: 1-10 mg/L, 96 hours	
	LC50 Daphnia: 1-10 mg/L, 48 hours	
Persistence and degradability:	: Not available	
Bioaccumulative potential:	: Not available	
Mobility in soil:	: Not available	
Other adverse effects:	: Not available	
2-propenoic acid		
Toxicity:	: LC50 fish: >100 mg/L, 96 hours	
	LC50 Daphnia magna: >100 mg/L, 48 hours	
Persistence and degradability:	: Do not discharge product into storm drains or waterways.	
	This product is not readily biodegradable.	
	A fraction of this product shows limited biodegradation	
	based on OECD 301-type and 302-type test data.	
Bioaccumulative potential:	: Less than 0.5% of the components displays potential to	
	bioconcentrate, based on their log Kow.	
Mobility in soil:	: Not available	
Other adverse effects:	: Not available	
SECTION 1	3 - DISPOSAL CONSIDERATIONS	

#### SECTION 13 - DISPOSAL CONSIDERATIONS

#### Product

: Sanitary sewer or dry absorbent if available. For large quantities, contact local environmental department or government authorities Do not dispose in drains, waterways, or soil Do not contaminate ponds, or ditches with chemical or the used container

#### SECTION 14 - TRANSPORT INFORMATION

Page 5 of 6

Page 6 of 6

UN Number UN Proper Shipping Name Transport hazard class(es) Packing group, if applicable Environmental hazards Special precautions for user Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
